Large house in the centre of Cancelada with almost 4,000 m2 of land around it. The house is separated into three apartments (with different deeds), a large basement, swimming pool and irrigated field, currently used for fruit trees. It is particularly interesting as a project for investors who would like to make it into a small aparthotel or apartments for rent, or for someone interested in renovating it and converting it into a ?single ?large ?villa ?with ?its own plot ?in ?the center of the town. ?The plot ?itself is ?very ?interesting to build on ?and ?highly ?profitable ?due ?to ?its ?location.
