Campo Mijas

960.000€

This exclusive villa, located at the top of La Sierrezuela, near Fuengirola, offers unparalleled panoramic views of both the sea and the mountains. It is a unique property, with stunning views of the surrounding mountains, the golf course, and a beautiful natural landscape. The villa features 6 spacious bedrooms, 6 full bathrooms, and several storage rooms, all perfectly distributed in an environment that reflects comfort and elegance. The tropical garden surrounding the property is impeccably maintained, ensuring that the villa remains a true retreat throughout the year. The kitchen is spacious and seamlessly connects to a cozy living-dining area, creating an ideal space for enjoying special moments with family and friends. The generously sized terraces are one of the jewels of the villa, allowing you to enjoy the views and the surroundings year-round. The property also boasts a large swimming pool, perfect for relaxing or enjoying sunny days. Privacy is another major attraction of this villa, offering a peaceful atmosphere away from prying eyes. Furniture is included. This villa is a true oasis on the Costa del Sol, ideal for those seeking luxury, tranquility, and spectacular views. Additionally, for those interested in renovating the property, it has great potential for refurbishment thanks to its size, both in the construction and the garden. If you're interested in exploring this project further, I would be happy to discuss it with you personally and present improvement ideas. You can view the architectural plans in the attached images. Don't miss this unique opportunity!
