A GEM IN JIMERA DE LÍBAR – Sale of a plot with a house in need of some TLC; Guadiaro Valley, Serranía de Ronda, Málaga, Andalusia, Spain. A practically flat plot of approximately 9,200 m², suitable for irrigated crops and fruit trees, offering immense potential. The property includes an older 153 m² house (with a roof in good condition, though the interior requires some repairs), a garage of about 50 m², and a covered terrace of around 20 m². The house features a living room, kitchen, bathroom with a shower, and four bedrooms; it is fully equipped and ready for immediate occupancy. It has mains water and electricity connections. The property borders both the access road and the railway line. Access is via a well-maintained 1 km dirt track from the town center. It is situated in a privileged natural setting on the banks of the Guadiaro River, which features a navigable stretch of one kilometer. Ideal for those seeking a property with arable land, a cozy home, stunning mountain views, and opportunities for outdoor leisure activities such as hiking and kayaking. The property has character and a wonderful atmosphere; if you dream of having your own space in a prime countryside location, this could be your diamond in the rough.
