House

Mijas Golf

795.000€

This very large and comfortable home was built by the current owner, and finished in 2005. The situation of the house is in a very elevated position at the top of the golf course, and the plot is very large and flat. There are wonderful views to the surrounding countryside and particularly the Mijas Mountains beyond. There is a detached garage for 2 large cars, a 10m x 5m salt water pool, and a flat garden all around the house. On entering the house there is a double height entrance hall, leading to a very large kitchen diner, with 2 zones of under floor heating. There is an enormous living room with 4 zones of under floor heating, and from this room there are double patio doors which open to a large terrace and garden area. Also on the ground floor are 2 large bedrooms, and 2 bathrooms. Upstairs is the master bedroom with en suite facilities, plus 2 further guest bedrooms, and a large open terrace. The house also boasts a separate lower ground floor games room, with separate utility. This area has independent access and could easily be converted into a fully independent apartment. An amazing house for the money, with so much space...
